Get paid to learn...study with no debt!

- **Find an opportunity**

Look for vacancies with employers or on the Governments apprenticeship website, or approach employers yourself.

- **Apply for the role and ensure you meet the course requirements**

There will be a recruitment process with the employer including an interview, you'll also need to meet the entry requirements to attend LJMU like any other student

- **Apply for your course**

Complete the online application form

- **Enter into an Apprenticeship Commitment Statement**

You'll enter into a contract with your employer setting out the obligations of all parties

- **Start working and learning**

From day one you'll be working towards getting your degree and all the while gaining valuable experience and earning a wage.

What people are looking for:

- Intellectual ability
- People who will make a contribution
- An understanding of the course
- Independent study skills
- Time management skills
- Research skills
- Enthusiasm to go beyond the syllabus
- Self-awareness
- Motivation and commitment
- Good numeracy and literacy
- Essay writing skills

Degree Apprenticeships

A degree apprenticeship is a route into work-based learning that enables apprentices to achieve a full degree while developing practical skills in the workplace. Employers benefit from sponsoring an apprentice by gaining a highly-skilled employee with both the academic qualifications and the relevant knowledge shaped by their on-the-job experience.

Why become a degree apprentice?

LJMU has been delivering degree apprenticeships since 2016 and currently has more than 1,200 students working across a range of sectors, including policing, healthcare, civil engineering, chartered surveying and business management.

Hear from some of our degree apprentices about their experiences at LJMU.

Praise from Ofsted

LJMU has received glowing praise from Ofsted for its degree apprenticeship programmes for fostering outstanding behaviour and attitudes among students while providing high-quality education tailored to local and regional employer needs, setting the stage for future growth.

[Information for employers](#)[Information for learners](#)[Subcontractors](#)[Courses](#)[Contact us](#)

Key facts

- The apprentice spends 80% of their time at work and 20% studying part-time
- Offers a more practical and work-related approach to gaining a qualification
- Learners need to meet the entry requirements for the degree, just like any other student
- Tuition fees are paid by the employer with funding from the Government
- LJMU offers a number of [Degree Apprenticeship courses](#) with more planned for the future
- Open to anyone over the age of 16 including school-leavers and existing staff that need to upskill
- Learners are in the workplace for at least 30 hours per week, earning a wage and receiving other employment entitlements
- Learners complete their degree within four to five years
