

Super-Curricular Newsletter

Welcome to this half term's Super-Curricular Newsletter. This edition highlights some of the exciting opportunities and activities students have engaged with beyond the classroom, including a busy National Careers Week filled with inspiring guest speakers and career-focused events. We hope these experiences continue to encourage curiosity, ambition and a deeper exploration of interests beyond the curriculum..

During National Careers Week this half term, you took part in a range of activities designed to broaden your understanding of future pathways, including talks from visiting guest speakers who shared insights into their careers and industries. Although the week has now finished, you are encouraged to continue exploring your interests by researching different career routes, speaking to teachers and mentors, and taking advantage of super-curricular opportunities that help develop skills and knowledge beyond the classroom. Don't forget to log onto **Unifrog** to explore apprenticeships, university courses, and careers guidance, and visit the **National Careers Week resources** at <https://ncw2020.co.uk/> for further ideas and inspiration.

Year 12 Work Experience – 13th to 17th July 2026

Year 12, it's time to start thinking about your work experience! Ms Hanlon will be giving an assembly on 14th April to explain how it all works and why getting real-world experience is so important. You should start looking into placements yourself. Ask friends and family, tap into your networks, and think about what really interests you. If you're struggling to find something, have a look at virtual work experience placements, which can also give you valuable insights and skills. Work experience is a great way to build skills, explore different careers, and get a head start on future applications and opportunities. Click on one of the links below if you need extra help finding a placement.

Unsure about your career? Virtual Work Experience

[Free Virtual Work Experience | Springpod](#)

Connect with world-leading organisations. This spring, get inspired and explore new ideas through our Spring POB activities.

Work Experience - [Work Experience – Futures For All](#)

Discover exciting opportunities to plan your future and develop skills for life and work.

VIRTUAL WORK EXPERIENCE

Virtual work experience - [Virtual work experience - Get Career Confident](#)

Access free virtual work experience placements to gain insight into different careers and build your employability.

Check out the *Leaders Award* website (<https://leadersaward.com/>) — it's packed with ideas and resources to help you take part in real-world challenge projects, develop your problem-solving skills, and learn how engineering and other careers make a difference. You can explore competition briefs, find helpful lesson materials and guidance, and discover how to connect with engineers and professionals who can support your project work. Using this site can help you build super-curricular experience, stretch your thinking, and boost your confidence in tackling big challenges.

Physics Careers

This is your opportunity to discover the multitude of career paths you can explore within the world of physics, from space and climate science to robotics, photonics and law.

Take a look at the *Planet Possibility* physics careers page (<https://www.planetpossibility.co.uk/advice/physics-careers/>) — it's a great place to explore the wide range of careers you can go into with physics, from research and engineering to tech, medicine and beyond. The site gives clear explanations of different job roles, the skills you'll need, and practical advice on how to get started, helping you think about what might suit your interests and strengths.

Check out the *St Peter's College Oxford – Increasing Access* page (<https://www.spc.ox.ac.uk/study-here/increasing-access/>) — it's all about the college's programmes and events that help students learn more about studying at university, including workshops, taster days and residential experiences designed to support you and give you a feel for academic life. You'll find information on subject taster sessions, school visits, residential with academic classes and social activities, and ways to connect with current undergraduates to ask questions and get advice on the admissions process and what it's like to study at Oxford.

BE MORE

The Liverpool City Region has 100's of apprenticeship opportunities for you to choose from, across many sectors and many types of roles. Apprenticeship opportunities can be viewed on a digital map, as a list or if you're using our new mobile app, you can swipe right for the ones that you wish to save to your profile.

To hear real life stories and experiences from apprentices, please visit the [Be More Stories](#) section or [CLICK HERE](#).

Virtual Events - students

Inspiring the Future have a constantly evolving selection of Interactive KS3+ Virtual Events. It gives you a more inspiring way to explore careers with real-life industry volunteers sharing their journeys, pathways, and career tips.

IMPORTANT: events are designed for students, but registration must be completed by a teacher or group leader for safeguarding reasons.

What to expect?

Inspiring talks

...by our workplace volunteers who come from a vast array of industries, sharing their stories and bringing the world of work to life with their different routes in and insights – from subjects that are relevant to skills required to do the job.

Interactive sessions and live Q&A

...to spark curiosity and so students can ask their burning questions and get exactly what they want out of the sessions.
